

Billion-Dollar Brain (Secret Files)

The classic thriller of a lethal computer age and a maniac's private cold war. General Midwinter loves his country, and hates communism. In a bid to destabilize the Soviet power bloc he is running his own intelligence agency, whose brain is the world's biggest supercomputer. With his past coming back to haunt him, the unnamed agent of The Ipress File is sent to Finland to penetrate Midwinter's spy cell. But then a deadly virus is stolen, and our hero must stop it from falling into the hands of both the Russians and the billionaire madman.
