

The resources of Missouri ; the natural adaptation of Saint Louis to iron manufactures

Leopold is delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. This means that we have checked every single page in every title, making it highly unlikely that any material imperfections such as poor picture quality, blurred or missing text - remain. When our staff observed such imperfections in the original work, these have either been repaired, or the title has been excluded from the Leopold Classic Library catalogue. As part of our on-going commitment to delivering value to the reader, within the book we have also provided you with a link to a website, where you may download a digital version of this work for free. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience. If you would like to learn more about the Leopold Classic Library collection please visit our website at www.leopoldclassiclibrary.com

The Resources Of Missouri, And The Natural Adaptation Of St. Louis To Iron Manufactures (1869) is een boek van Sylvester WaterhouseMISSOURI. The St. Louis Republican of the 15th inst contains an editorial article from all sources about 1,300,000 tons about 160,000 being imported from Pictou, our manufacturing industry and without such a supply of Tuel, our iron, lead, of mankind, so advantageously adapted to the benefit of the human race.St. Louis City National Register Listings and Architectural Resources of The Ville, St. Louis [Independent City], Missouri .
